For more than 100 years
these utilities have been

MAKING HISTORY

First Gas Plant of the New
York Gas Light Company

They have done even more.
They have helped to make
New York! At one point, a
single electric lamp dispels

First electric station at
Pearl Street, New York

the darkness of an entire street. At another, a woman, sharing the pleasures of her family, forgets that home and home-making were once the symbols of eternal drudgery.

Multiply these a million times and then another million, and you have etched the most familiar details of a great metropolis. Trace them to their source, and two significant dates stand out like beacons in the records of our city:

1823...when the first gas
mains threaded their way
through Broadway to the
Battery, and the first "White
Way" was born.

1882...when Thomas A. Edison gave the word that sent the current through the first incandescent electric system from a small central station down on Pearl Street.

Today's panorama of busy crowds...at least half of them women...could never have been possible without the wide distribution of leisure created by gas and electric service and labor-saving appliances.

This new world of lights and shadows, which has added hours to our day and years of greater usefulness and enjoyment to our lives, is the direct product of these public utilities, brought to present efficiency by the inventive and organizing genius of men with vision to plan, and strength to maintain, the human as well as technical equipment that represents the nerves and arteries of our urban civilization.

In the vast underground system of pipes and cables, they have already charted the future development of the city. The capacity for increased service which thus lies at our roots is a real promise of enduring growth for many generations to come.

"I GAMBLED 2¢ and WON \$35,840 in 2 YEARS"

A Story for Men and Women Who
Are Dissatisfied With Themselves

THIS is the story of a gamble—a 2c risk—which paid me a profit of \$35,840 in two years. I am not, and never was, a gambler by nature; in all probability I never would have taken the chance if more money was involved. So even if you, too, are against gambling, you will feel like risking two cents after you've read my story.

Some people believe I was lucky. Others think I am brilliant. But this sort of luck I had everyone can have. My type of brilliance is that of any average man.

Almost any \$40-a-week wage earner has as complete a mental equipment as I had two years ago. And he feels today just about the way I did then. For two years ago I, too, was in the \$40-a-week rut. My earnings were \$2,080 per year!

I was discontented, unhappy, I was not getting ahead. There didn't seem to be much hope in the future. I wanted to earn more money—a lot more money. I wanted to wear better clothes and have a car, and travel. I wanted to be on a par with people I then looked up to. I wanted to feel equal to them mentally and financially.

But it all seemed hopeless. I was beset with fears. I was afraid of losing my job. I was afraid of the future. I could see nothing ahead for myself and my wife and baby but a hard struggle. I would live and work and die—just one of the millions who slaved their lives away. I was irritable, easily annoyed, discouraged, "sore" at my fate and at the world. I could not think clearly. My mind was in a constant whirl. I was "scatter-brained." I had a thousand half-baked ideas to make more money, but acted on none of them.

The end of each year found me in about the same position as the beginning. The tiny increases in salary, grudgingly given to me, were just about enough to meet the rising costs of living. Rent was higher; clothes cost more; food was more expensive. It was necessary for me to earn more money. So once in a while I got a few dollars more. But it wasn't because of any great change in my ability.

Today I have an income of \$20,000 a year. That's exactly \$17,920 more than it was two years ago. A difference of \$35,840 in two years. My family has everything it needs for its comfort and pleasure. My bank account is growing rapidly. I have my own home in the suburbs. I am respected by my neighbors, and I have won my wife and children's love as only the comforts and pleasures of life can do. When I am old I will not be a millstone around anyone's neck. My children will not have to support me.

I look forward to the future with confidence and without fear. I know that only improvement can come with the years. Once I wandered through life aimlessly, cringing, afraid. Today I have a definite goal and the will to reach it. I know I cannot be beaten. Once my discontent resulted in wishes. Today my slightest discontent results in action. Once I looked forward hopefully to a \$5 a week increase in salary. Today I look forward confidently to a \$100 a week increase in my earnings.

What magic was it that caused the change in my circumstances? How did I, a \$40-a-week clerk, change my whole life so remarkably? I can give you the answer in one word—Pelmanism. I gambled 2c on it. Yet without it I might have continued in my old \$40-a-week rut for the rest of my life.

Pelmanism taught me how to think straight and true. It crystallized my scattered ideas. It focussed my aim on one thing. It gave me the will power to carry out my ideas. It dispelled my fears. It improved my memory. It taught me how to concentrate—how to observe keenly. Initiative, resourcefulness, organizing ability, forcefulness were a natural result. I stopped putting things off. Inertia disappeared. Mind-wandering and indecision were things of the past. With new allies on my side and old enemies beaten, there was nothing to hold me back.

I am writing this in appreciation of what Pelmanism did for me. I want other average men to gamble 2c as I did. For the cost of a postage stamp I sent for the booklet about Pelmanism called "Scientific Mind Training." Reading that free book started me on my climb. I took no risk when I enrolled for the Course because of the Institute's guarantee. All I gambled was 2c and I am \$36,000 better off now than I would have been had I not written for the book about Pelmanism.

* * *

The Pelman Institute will be glad to send a copy of "Scientific Mind Training" to any interested individual. This book is free. It explains Pelmanism. It tells what it does to the mind. It tells what Pelmanism has meant to others. For over 25 years Pelmanism has been helping people to happiness. Over 750,000 others have studied this remarkable science. Among those who have praised it are such great world figures as Judge Ben B. Lindsey, Lieut.-Gen. Baden-Powell, Edgar Wallace, Sir Harry Lauder, Major-Gen. Sir Frederick Maurice, H. R. H. Prince Charles of Sweden, and many others. Your whole life may be altered as a result of reading "Scientific Mind Training." Send the coupon. You have nothing to lose. If Pelmanism does not help you it costs you nothing. There is no obligation in mailing the coupon. No salesman will call on you. Decide for yourself what to do after you read the free book about Pelmanism. Mail the coupon NOW!

"The Indian with a Lid on His Stomach!"

IN 1822 the blast of a shot-gun roared in a frontier trading post. The front of an Indian's stomach was torn away. But clever stitching saved his life. For 58 years his patched-up stomach—in daily operation and open to view—told Science almost all it now knows about Digestion!

Do you realize most of us have had tuberculosis and never knew it? . . . that a high fever is a good sign in most infectious diseases? . . . that we digest foods we enjoy better than those we don't like? . . . that heart failure from over-exertion practically never occurs? . . . that the fact the tonsils are enlarged is no reason for removing them?

Know your body!—at least as well as you understand your automobile! Amazing and reassuring truths about your health, weight and diet—completely "de-bunked" of fads and fallacies—are fascinatingly told in "THE HUMAN BODY," by Dr. Logan Clendening, Member of the Board of Governors, American College of Physicians, and Professor

of Clinical Medicine, University of Kansas. His book turns the workings of your body inside out; turns upside down popular misbeliefs about your habits and your health!

Thousands paid \$5.00 for this commonsense book. Now it's only ONE DOLLAR. 399 pages, printed from original plates on high-grade paper. Lavishly illustrated with 102 amazing pictures—freaks of nature, private photographs, map showing goiter regions of the U. S.; old print of first successful abdominal operation; actual photograph of one of first operations under ether; a strange 1802 cartoon against vaccination—scores of other accurate, revealing photos, charts, diagrams.

"THE HUMAN BODY" is the one fascinating, easy-to-read, indispensable book on the human machine. Stop worrying about your health. Get "THE HUMAN BODY" now.

Stop Worrying About Yourself!

Are some of these popular misconceptions about health familiar to you?

"Eight hours' sleep is essential to health. All insomnia is dangerous. Nervous insomnia leads to insanity."

BUNK! "Overwork leads to nervous breakdown."

"A careful planned diet is essential to health. A variety of food eaten at the same time is harmful. Your stomach is a sign of indigestion."

BUNK! "Modern life is so strenuous that our nerves cannot stand the strain."

"Brain work is very fatiguing. It causes brain-fag and exhaustion."

BUNK! "Constipation is at the root of most physical ailments, and is caused by eating the wrong kind of food."

In Commemoration of the

BY

Commissioners

OF

The Port of New York Authority

The Port of New York Authority is a public corporation created jointly by the States of New York and New Jersey to carry out the terms of the Port Treaty adopted by the two states on April 30, 1921.

It is not a private corporation with stocks and bonds; nor is it a commission.

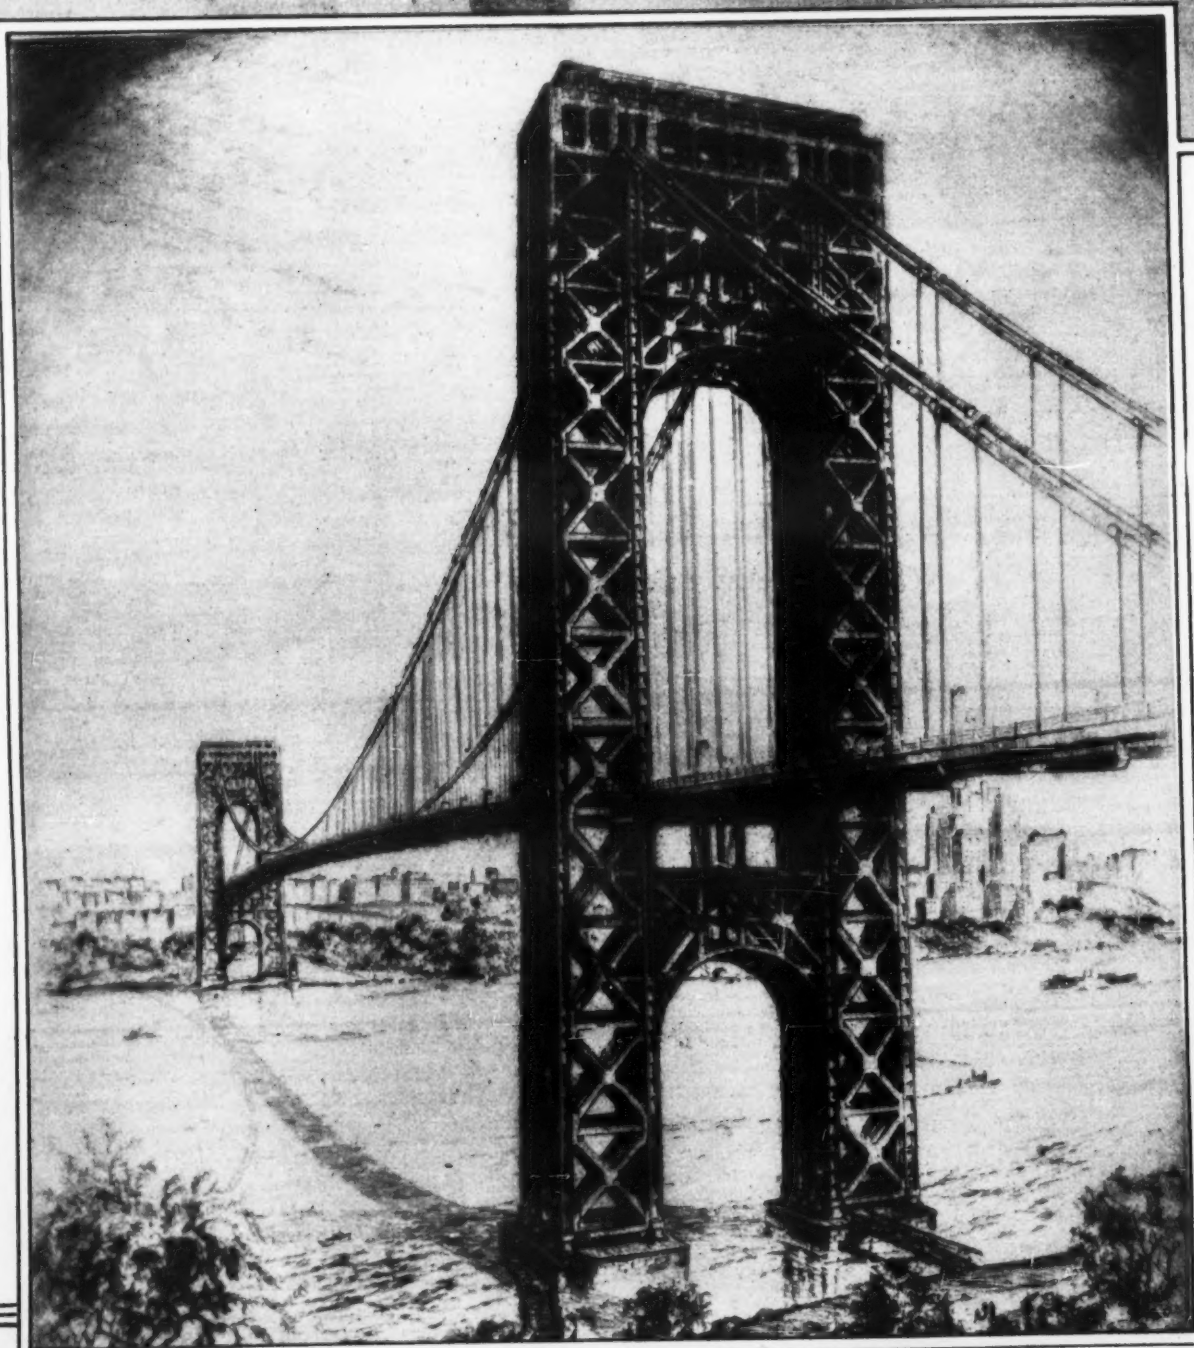

It can own property, issue bonds that are not part of the debt of either state, and make all kinds of developments consistent with the purpose for which it was created.

The Port Authority, as the executive agency of the two states, is composed of twelve commissioners—six from each state—to serve without compensation. It is organized as a single body, but the vote of at least three commissioners from each state is necessary for the legality of each decision.

GEORGE WASHINGTON BRIDGE

BETWEEN NEW YORK

THE SITE of the George Washington Bridge is of historic interest. During the American Revolution the terrain in the immediate vicinity was the scene of many of the momentous events which led to the foundation of the Republic. Fort Washington and Fort Constitution, on either side of the river, figured conspicuously in the defense of the Colonies of New York and New Jersey by the American patriots under the leadership of George Washington.

A Colonial battery, stationed at the very site of the New York tower of the bridge, defended the American position from a bombardment by British frigates. When George Washington was forced to evacuate the city of New York and retire into New Jersey, covering detachments were left at various positions in northern Manhattan.

This bridge, erected by The Port of New York Authority, will always be one of the outstanding landmarks in the Port District—a monument both to the present generation and to the Revolutionary forebears. Accordingly, the Port Authority named it the "George Washington Bridge" in opening it to interstate traffic on October 25, 1931.

GE OVER THE HUDSON RIVER ORK AND NEW JERSEY

HOLLAND TUNNEL

The States of New York and New Jersey in 1930, placed operation of the Holland Tunnel, which extends under the Hudson River between Jersey City and Manhattan, under the jurisdiction of The Port of New York Authority as agent for the two States.

In 1931, financial control also was given to the Port Authority and \$50,000,000 in bonds were issued to reimburse the two States for their investment.

The tunnel was named after Clifford M. Holland, designer and first chief engineer, and has been a tremendous success since it was opened November 13, 1927. Between that date and December 31, 1931, the Holland Tunnel was used by 45,531,664 vehicles.

The Port of New York Authority presents ITS NEXT GREAT UTILITY UNION INLAND TERMINAL NO. 1

The Outerbridge Crossing is an important link in this rapid highway system from Manhattan, Brooklyn and points north and east to points west and south.

On the Staten Island side of this bridge is open country with well-paved highways throughout the length of Staten Island and, on the Perth Amboy side, direct connection is made with Highway 4 for Southern New Jersey and by wide and well-paved thoroughfares with Highway 25 leading to New Brunswick, Trenton, Philadelphia and beyond.

The Goethals Bridge forms a link in a direct route from Brooklyn and other Long Island points to south and southwest New Jersey, Pennsylvania and beyond. Its Staten Island Plaza is within a five minute drive of the Staten Island Plaza of the Bayonne Bridge which provides a high-speed overland highway to Manhattan and one not subject to the inconvenience of drawbridges and traffic density to be found on alternate routes. On the New Jersey side of the bridge contact is made with Trunk Highway 25 leading to Philadelphia and the South and with direct highway routes to New Jersey seashore resorts.

The Bayonne Bridge is of the steel arch type and provides an important new highway that will accelerate the industrial and residential activities of the sections it adjoins. In conjunction with the Holland Tunnel and the Hudson County Boulevard on the north it provides the first direct highway between the boroughs of Manhattan and Richmond. With the Goethals Bridge and the Outerbridge Crossing over the Arthur Kill, it provides a convenient route between New York and south and southwest New Jersey and beyond, including the Atlantic Seaboard.

Eugene H. Lehman,
Mayor of
Tarrytown, New York

If love and war are two of the most interesting things in life, then the thoughts of George Washington must frequently have turned to historic Tarrytown; for here he loved and here he fought. If victory and defeat mark crises in a great man's career, then Washington met with two such turning points here in this romantic Irving Country; for amidst these beautiful Westchester hills, our national hero lost in love but won in war.

In the old Manor House, now occupied by Elsie Janis, the popular actress, there lived in Colonial days Mary Philipse, the charming young daughter of Sir Frederick Philipse and his wife, Mary Van Courtland. Her hand was being sought by two rival courtiers, a British Tory named Morris and a Colonial lieutenant named Washington. Mary gave her heart to the Tory. Ten years later, the lieutenant returned to this portion of Westchester, now Commander-in-Chief of the American Army. He took possession of the Manor House and, ignoring the pleas of Mary, threw her Tory husband into prison, and made the house his headquarters.

On the ground where now stands the campus of Highland Manor School and Junior College, three Colonial troopers serving under the Commander-in-Chief captured Major John Andre, who was returning to New York just after he had concluded negotiations with Benedict Arnold for the surrender of West Point to the British. Of these three troopers Washington later wrote, "They prevented, in all probability, our suffering one of the severest strokes that could have been meditated against us."

Herbert C. Dickinson
Mayor of
Village of Irvington,
New York

As we celebrate this epochal occasion, marking the 200th birthday of the Father of our Country, let us look back to those days of our early progenitors. Think of the hardships undergone by them to create these United States of America, how that great leader, George

Washington, with his courage, foresight, devotion and love for his country, spurred on his faithful citizens during those darkest moments to pass to posterity this sovereign nation that we might enjoy the fruits of the sacrifices which he and his early Americans made for us.

Let us today, in this hour of uneasiness and suffering, profit by their great example, be inspired by their devotion and loyalty to give us courage to help us through this time of need, so that we, too, may be recorded in history as co-builders of this Great Nation we serve.

Welcome
To

TARRYTOWN
NORTH
TARRYTOWN

Fred W. Gross
Mayor of
North Tarrytown, N. Y.

North Tarrytown on the Hudson extends to you a cordial invitation to visit this beautiful and historic community.

North Tarrytown was the scene of many stirring events during the Revolution.

The countryside has been made immortal by the gifted pen of Washington Irving. For here it was that the gentle writer and humorist lived.

Close by the site of the bridge where in Irving's legend the headless horseman hurled his head at the fear-crazed Ichabod Crane, there stands today the Washington Irving Memorial Bridge, erected in memory of the author and citizen of this community.

And one still finds in North Tarrytown the Old Dutch Church of Sleepy Hollow where the superstitious Ichabod of Irving's tale led in the psalmody. Although the year of its erection is unknown, the date cast in the bell is 1685. During the generation when the section was first settled, this was the only church between New York and Kingston, and for a century the only place of public worship between Yonkers and Peekskill.

Tarrytown, N. Y.

Tarrytown, North Tarrytown and Irvington are situated on the eastern shore of The Tappan Zee; on the New York Central Main Line and Albany Post Road; 22 to 25 miles from 42nd Street, New York.

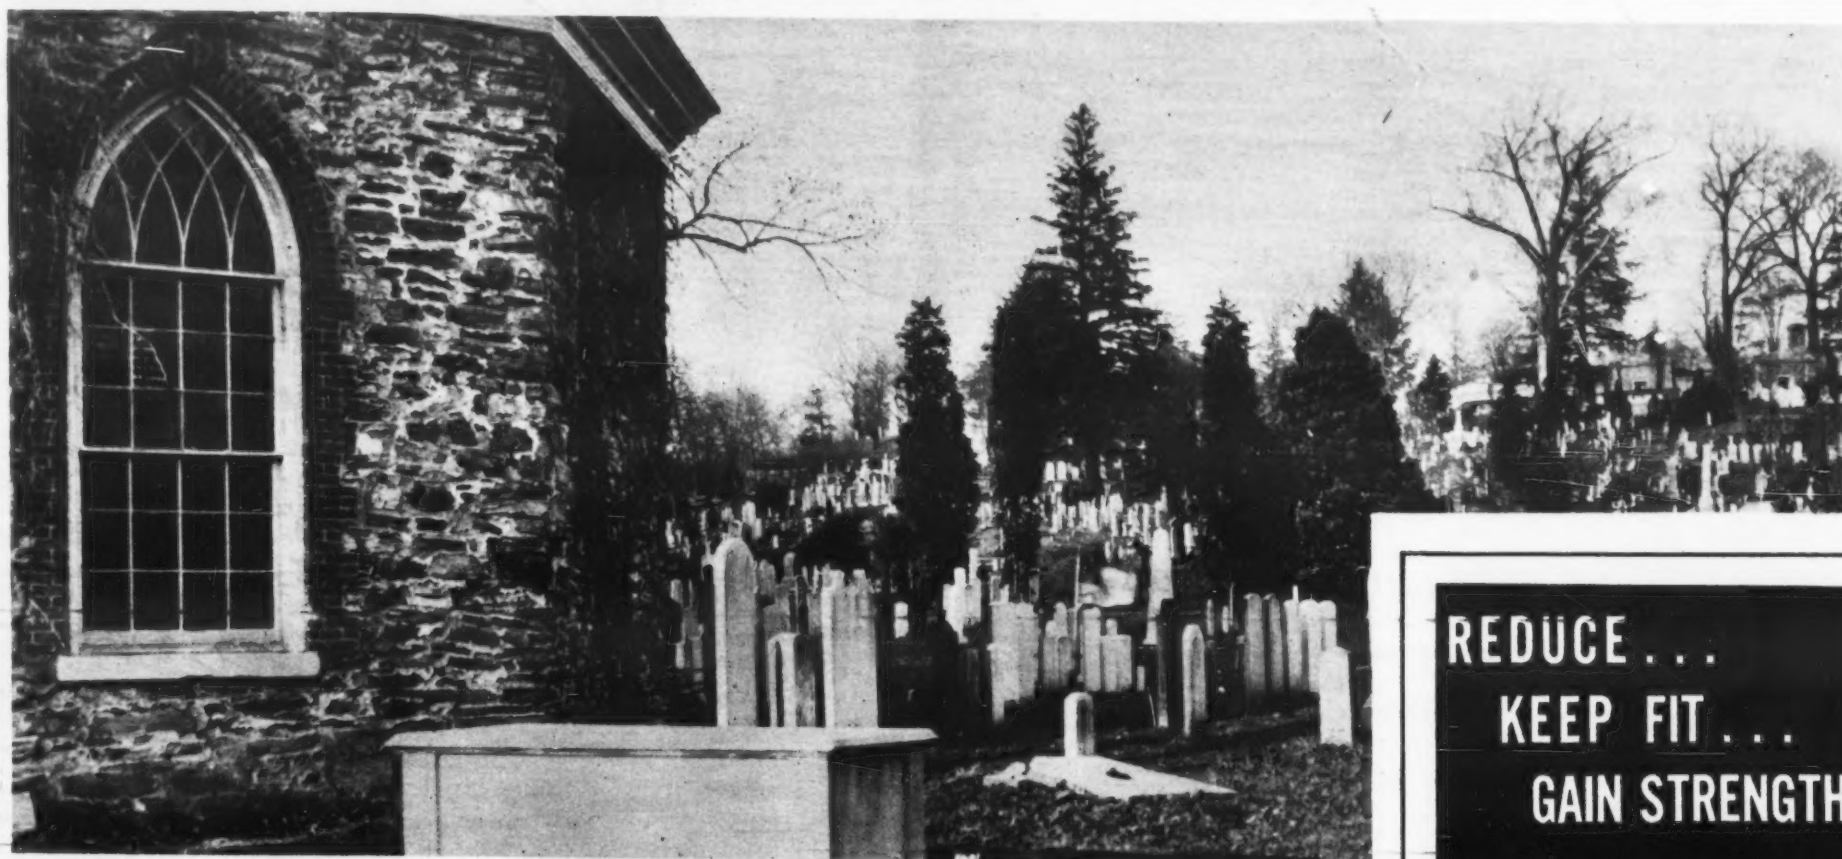

The physical advantages of this area of about 7 square miles, to 400

feet above sea level, are water from natural springs and New York City watershed; beautiful countryside, and magnificent river views.

For recreation there are 32 Westchester country and golf clubs within a 15-mile radius; parks, playgrounds, tennis courts, bathing beach; riding and hunt club; 2 theatres; Y. M. C. A.; Lions and Rotary Clubs; fraternal organizations.

Our cultural and educational environment with banks, shops, markets and other city conveniences is of substantial growth and development.

The Chamber of Commerce will gladly furnish information to all who desire to establish permanent residence or invest in improved properties in any of the three villages.

loved ones from poverty

THIS is a message that will bring joy and happiness to hundreds of thousands of families all over America. It will mark the start of years of contentment and safety. It will be the foundation for bigger, fuller lives, unhampered by the spectre of fear.

Postal Life Insurance Company, through its low cost direct methods, now offers you standard, old line, legal reserve life insurance for only \$1.00 a month. Protection, safety, the assurance of an unhampered future for your loved ones, is now made available at an amazingly low cost.

See what \$1 a month will do for you

Prices have been reduced to a minimum. Payment plans have been made easy and simple. The way to complete protection for your family is clearly marked.

The insurance offered is the standard of "whole life" policy, carrying full cash and loan values, and paid up and extended privileges modified only to reduce the premiums during the first five years.

It is backed by more than 20 million dollars of assets of the Postal Life Insurance Company and issued in exact conformity with the legal reserve requirements of the stringent insurance laws of the State of New York. On this special policy the premiums you pay for the first five years are only one-half the permanent premiums (payable after five years). Now—when everyone's earning power is low, you get the most protection at the lowest cost.

You need not let your loved ones go another day without adequate protection.

Simple!—Easy!— Immediate!

Here is all you have to do. Even the securing of the protection has been made simple and easy. The table below shows exactly how much insurance \$1.00 per month will buy at your age. Two dollars will buy twice as much, three dollars, three times as much, etc. The maximum amount of insurance purchasable on any one life under this offer is \$20,000.

Consult this table and decide how much insurance your family needs. Then fill in the coupon, send it to the Postal Life Insurance Company, enclosing the amount of the first month's premium.

Your insurance—your family's protection becomes effective immediately upon the approval of your application. There is no bother, no red tape, no salesman. Postal sell only direct to the public. The savings resulting from the elimination of salesmen are passed on to you.

Send the Coupon—

Now is the time to act! Do not permit another sun to set with the coupon unmailed. All about you are the terrible results of "men who delayed"—children's lives thwarted and ruined—lovely women grown old and ugly before their time. For your own sake—do not let the spectre of fear and uncertainty rob you of your energy another day. When you square your shoulders—look life straight in the eye and claim the first estate of manhood by being a "good provider"—then you know the joy of accomplishment. The coupon makes it easy, simple and sure—fill it out now or write—immediately.

HENDERSON'S SPECIAL FREE OFFER

1932 Seed Catalogue and 25-Cent Rebate Slip

Mail the coupon and we will send you free of charge "Everything for the Garden," Henderson's new seed catalogue, together with the new Henderson 25-Cent Rebate Slip.

"Everything for the Garden" is the title of our 1932 catalogue. It is a beautifully illustrated book with 32 full color plates and hundreds of illustrations direct from actual photographs of the results of Henderson's seeds. It offers many special collections of vegetable seeds arranged so as to give a continuous supply of fresh, crisp vegetables throughout the summer, and collections of flower seeds especially arranged for harmony of color and continuity of bloom.

It is a complete garden book and should be in the hands of every lover of the garden beautiful or bountiful. Clip the coupon now!

The Henderson Rebate Slip, which will be sent with every catalogue where the coupon in this advertisement is sent us, will be accepted by us as 25 cents cash payment on any order of two dollars or over. In addition, we will also include with your order from our catalogue amounting to two dollars or over our Henderson Specialty collection of six packets of Flower Seeds.

These six packets are all seeds of our own introduction and are among our most famous specialties—Large Early Flowering Cosmos (mixed), New Giant Zinnias (mixed), Giant Single Flowering Petunias (mixed), Invincible Asters, Brilliant Mixture Poppies and Giant Waved Spencer Sweet Peas. These, like all Henderson's Seeds, are tested seeds.

For eighty-five years, Henderson's TESTED SEEDS have been the standard. Year after year our constantly improving methods have enabled us to maintain our supremacy among American seed houses. The initial cost of your seeds is the smallest item in your garden's expense, and it is of advantage to plant seeds of recognized quality from a house of reputation and standing.
